# DECORATIVE Striping

Our premium grade TFX professional striping system was developed exclusively for use in the automotive market. A special adhesive was developed specifically to make it possible to reposition the tape without breaking it or leaving an adhesive residue. It

immediately gained popularity and recognition among professional restylers, and now stands alone in the marketplace as the benchmark for all other brands.

A full color spectrum is available in both opaques and metallics. We also offer many other materials and specialty films available in a variety of other forms, such as **Shimmer Metallic, Ultra Metallic, Radiance, Black Non-Skid, Black Out, Luster, Polyester Film, and Premium Reflective, as well as a surface protection film called Uni-Gard®.** Below is a printed representation of these colors and materials. **Printed colors are a simulation of the actual vinyl color. For an accurate TFX vinyl color match, refer to our Striping Systems Color Chart.**

# CUSTOM Graphics

DEPARTMENT

**Banners • Floor Graphics • Automotive Logos & Designs  
Bumper Lettering • Full Color Printing ...and much, much more!**

**Custom Lettering** is a computerized production process established to offer custom, low-volume vinyl graphics at a cost efficient rate. Create one-of-a-kind products by choosing from our vast selection of typestyles, and type options. If you choose, send us a design, we will scan it and duplicate it in vinyl for you, for a nominal fee.

All custom graphics and lettering can be made in vinyl colors to match any Universal Products TFX striping tape and kits. Letter sizes can be cut from 1/4" to 48" high for unlimited possibilities. Type styles are listed on the next three pages. Type options are listed below.

We also offer art reproduction and scanning services to recreate your logo or design. We have recently added a **Roland 54"** solvent inkjet printer that provides six-color output on vinyl! If you would like more information on these services please give us a call.

Don't miss the exciting **Graphic Designs** at the end of this section to find some great custom graphics that can be used to personalize your work.
