TRUCK MOLDINGS

No other chrome molding is so well protected... and looks so great!

Trim-Gard has changed the rules for automotive after-market moldings! Our line of top-capped O.E. style moldings provides a choice you've never had before. We've capped our chrome with a thick, tough, layer of crystal clear vinyl, giving 20 times more protection to the chrome finish, making these moldings more durable than ever and actually improving the look of the chrome by imparting a deep rich glow, not possible before.

DECORATIVE Striping

Our premium grade TFX professional striping system was developed exclusively for use in the automotive market. A special adhesive was developed specifically to make it possible to reposition the tape without breaking it or leaving an adhesive residue. It immediately gained popularity and recognition among professional restylers, and now stands alone in the marketplace as the benchmark for all other brands. A full color spectrum is available in both opaques and metallics. We also offer many other materials and specialty films available in a variety of other forms, such as Shimmer Metallic, Ultra Metallic, Radiance, Black Non-Skid, Black Out, Luster, Polyester Film, and Premium Reflective, as well as a surface protection film called Uni-Gard®. Below is a printed representation of these colors and materials. Printed colors are a simulation of the actual vinyl color. For an accurate TFX vinyl color match, refer to our Striping Systems Color Chart.

TWO-TONE PAINTING

With the Striper stencil tape, two-tone pinstriping is easy and looks great. It solves the problem of matching the correct size pinstriping with the desired colors, which is a problem with regular vinyl pinstriping tape.

Printed colors are simulation of paint colors

THE STRIPER®

The Striper stencil tape is available in 160-ft. rolls and over 50 different sizes. Our tape leaves the cleanest and sharpest lines, nothing else even comes close!

LOGO SCREENS

Logo screens each feature a pair of graphics, approximately 1/2" tall. The screens measure 6" tall by 4" wide.

Place the screen on the car with the lip side down. Put paint on the screen, push down, and squeegee the paint across the screen. Lift up quickly. Clean your screen with water or mineral spirits.

Stock designs are pictured here, but we can custom make any design or modify any of the stock designs for a small charge.

Use any of the Finesse paints on page 76 to coordinate with your painted pinstripes! [More designs available—any design from pages 231-237!](#) [Automotive and corporate logos also available!](#)

- **Floor Graphics**
- **P.O.P. Displays**
- **Trade Show Displays**

Working together with our designers and graphic artists, we can help you realize the design of your dreams. By combining the best aspects of three different digital printing devices, we work hard to maximize your budget.

- Gerber Edge provides 12" wide thermal based, 4-color and spot color prints.
- Roland Solvent Inkjet prints up to 54" wide in 6 colors with brilliant output.
- Matan Sprinter B prints up to 36" wide 4-color thermal prints at high speed.

In addition, we can print directly to banner, static cling, perforated window film, and pressure sensitive vinyl - no more laminated prints!

WHY CUSTOM GRAPHICS?

- 1440dpi for photo-realistic prints
- Low cost per square foot
- 3-5yr outdoor durability—
never needs lamination
- Custom contour cuts without
costly die fees
- No film charges - prints directly
from your digital file

CUSTOM SERVICES DEPARTMENT

*Banners • Floor Graphics • Automotive Logos & Designs
Bumper Lettering • Full Color Printing ...and much, much more!*

Custom Lettering is a computerized production process established to offer custom, low-volume vinyl graphics at a cost efficient rate. Create one-of-a-kind products by choosing from our vast selection of typestyles, and type options. If you choose, send us a design, we will scan it and duplicate it in vinyl for you, for a nominal fee.

All custom graphics and lettering can be made in vinyl colors to match any Universal Products TFX stripping tape and kits. Letter sizes can be cut from 1/4" to 48" high for unlimited possibilities. Type styles are listed on the next three pages. Type options are listed below.

We also offer art reproduction and scanning services to recreate your logo or design. We have recently added a Roland 54" solvent inkjet printer that provides six-color output on vinyl! If you would like more information on these services please give us a call.

Don't miss the exciting **Graphic Designs** at the end of this section to find some great custom graphics that can be used to personalize your work.

CUSTOM STYLE YOUR VEHICLE!

KEEP YOUR INTERIOR COOL!

REDUCE NIGHTTIME GLARE!

INCREASE PRIVACY!

These Collegiate window graphics are printed using outdoor UV rated inks offering you years of satisfaction. We provide a 3-Year warranty against fading, peeling and shrinking.

COLLEGIATE SEE-THROUGH WINDOW GRAPHICS

EXTERIOR MOUNTED WINDOW GRAPHIC

Glasscapes Brand™ see-through window graphics are designed to reduce UV exposure inside your vehicle up to 75% preventing fabric fading while keeping you and your vehicle cooler. All available stock sizes fit pick-up and SUV windows. Custom sizing is available for any size vehicle from small trucks up to large RV side and rear windows. Glasscapes are made with a special pressure-sensitive adhesive on the backside that allows you to mount the graphic to the outside surface of your vehicle glass. These high quality graphics provide an unobstructed view from the inside while giving your vehicle a total custom look!

Sizing Guidelines

- Full-Size Pickup Truck Rear Windows Require 66" x 20"
- Most SUV Rear Windows Require 66" x 29"

Please consult local laws regarding window tinting - Do not apply to windshields, driver side or passenger side front doors. Wet weather use caution - Rain, snow and moisture can collect in the perforations and cause reduced vision out of the covered window. Wipe exterior graphic surface with a dry cloth to improve rear vision in inclement weather. Rear window defrosters help in drying window in wet weather driving conditions. Always use your outside rear-view mirrors when backing.

Cowboy Up and Cowgirl Up are the property of Wyoming West Designs II, Inc. Manufactured under license by Woodward 1 Automotive, Inc. Made In U.S.A

Glasscapes Cowboy Up window graphics are available in stock and custom sizes to fit all vehicle window sizes. Pick your favorite Cowboy Up or Cowgirl Up image and let the world know that the spirit of the West rides down the road with you.

Glasscapes Brand window graphics help keep your gear from being viewed by unwelcome eyes. Keep the interior of your vehicle cooler and reduce the destructive effects of UV radiation.

SIZE DOES MATTER.

Proudly display your colors with rear window graphics from Custom WindowScapes! Choose from any of our exciting designs or create a unique design of your own!
